

# Company and Offerings Overview

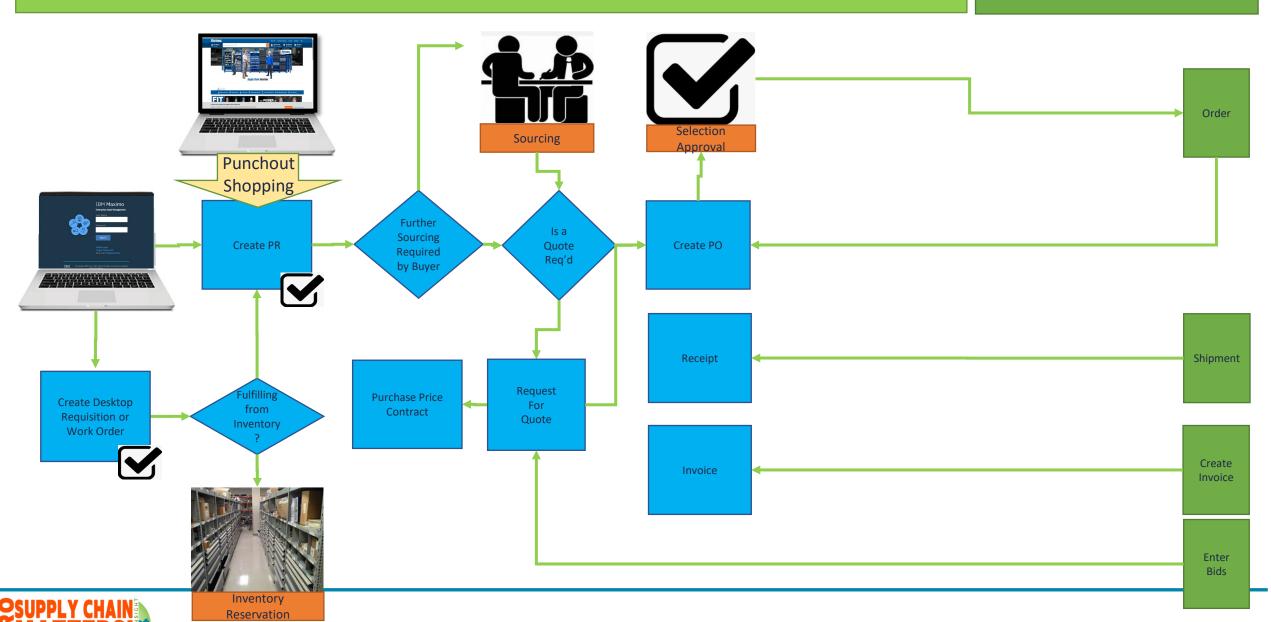

#### **Buying Organization**

#### Suppliers/Vendors

#### **Buying Organization**

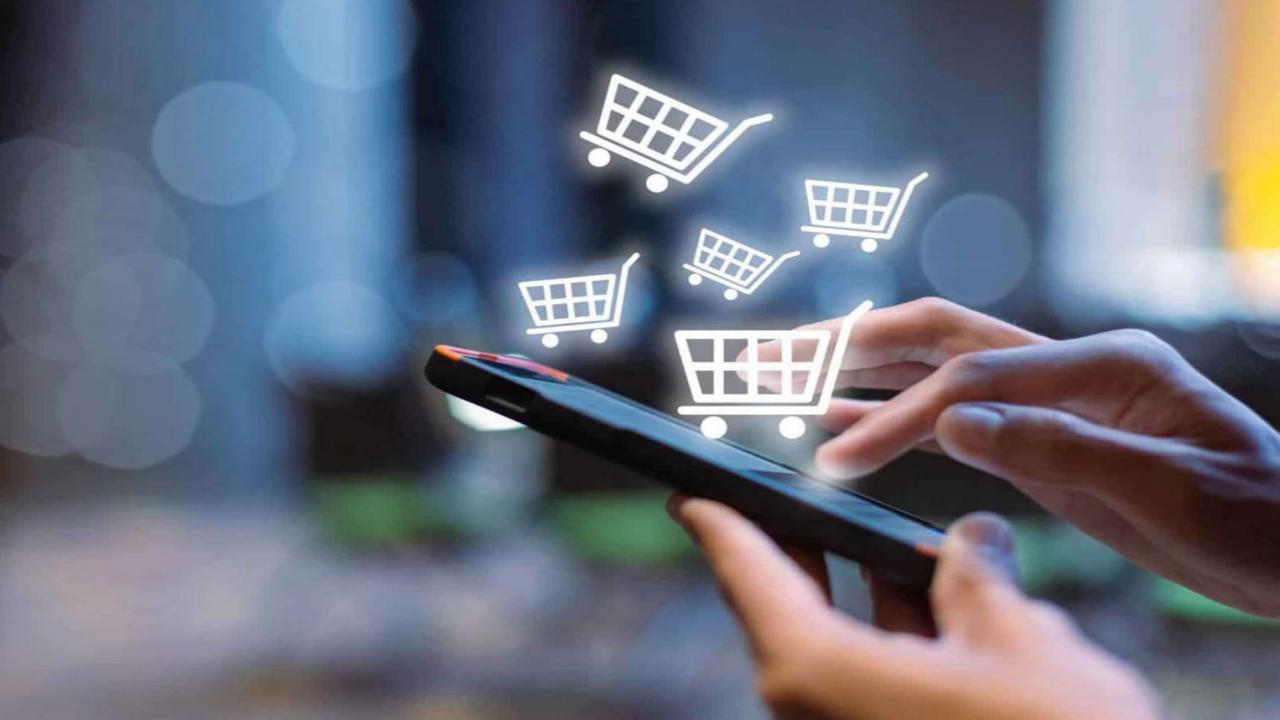

## Suppliers/Vendors

# Why?

- Much faster.
- Accurate. No data entry errors. No incomplete information. No wasting time clarifying or ordering the wrong part and returning things. No PO-Invoice price discrepancies to deal with.
- Can be automated. The system can use the information to automate things.
  - Maximo can't do much with phone calls, voicemails, faxes, or unstructured emails
  - But, with electronic exchange of information, it can automate using workflow, escalations, notifications, and automation scripts.

# **Enabled Suppliers**

Plus adding more all the time...

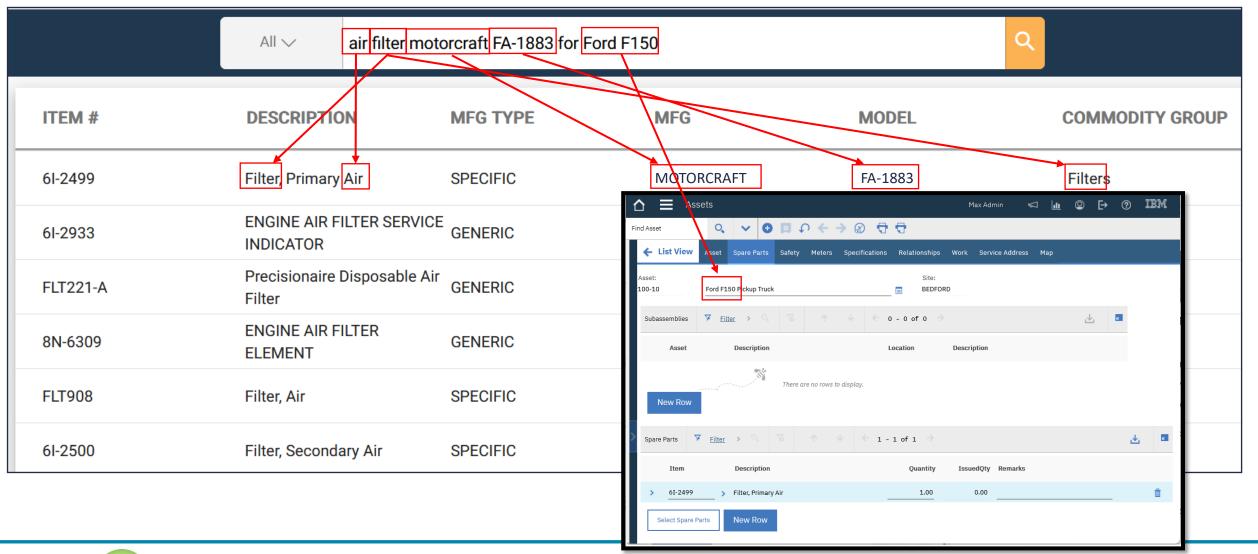

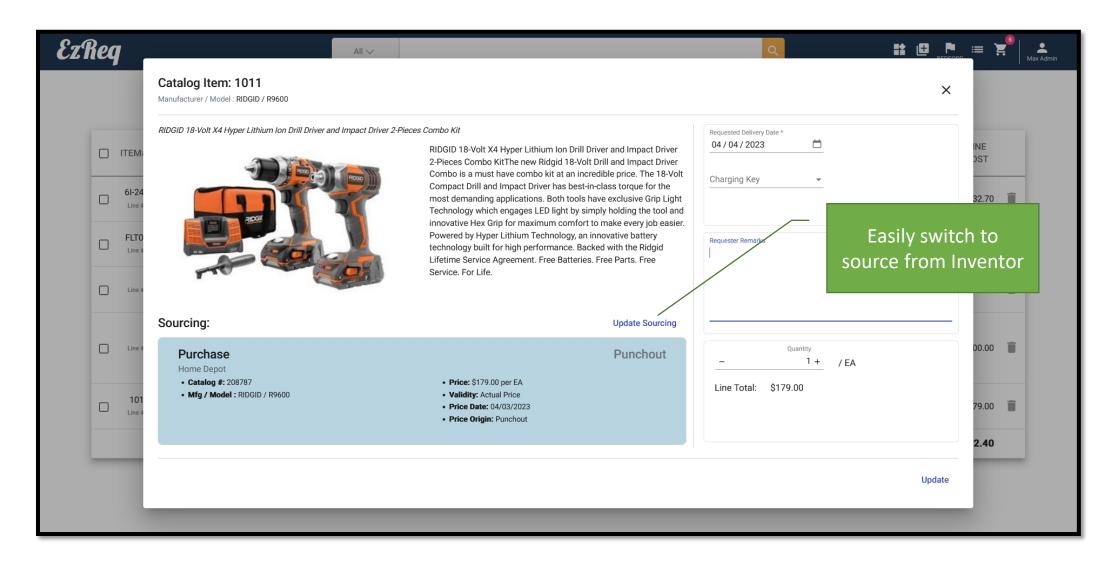

#### Indexed Search finds the item no matter where the keywords are located...

### If match found, Requester can switch to sourcing from inventory

# Self-Service Stores Kiosk

- Tradesperson walks into the Storeroom and takes a Mobile device from the Kiosk station. (Or uses their own Mobile device)
- Walks around the storeroom picking items, scanning them in, and entering quantity taken.
- When done, returns to the Kiosk station and scans in their badge and a bar code on the Kiosk screen...
- The list of picked items is automatically transferred from the Mobile device to the Kiosk.
- Tradesperson uses the large screen and keyboard of the kiosk to review the list of items, validate everything, specify charging details, and post.

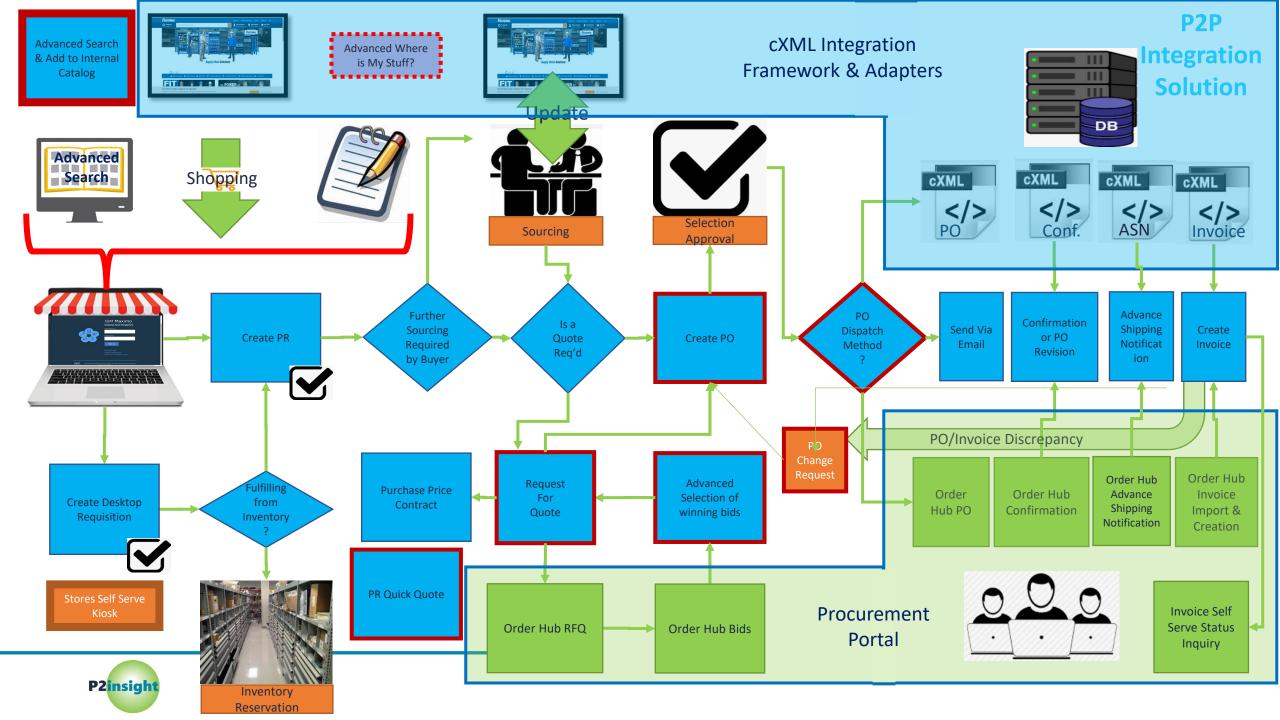

# Three key components:

- 1. cXML Integration Framework and Adapters for integration with advanced vendors
- 2. Order Hub Procurement Portal for interaction with less advanced vendors
- 3. Extensive Maximo enhancements and process improvements

# Think of us as the Uber for MRO P2P

#### **Traditional Taxi:**

- Call and wait, no visibility as to when they will get here, nor the price
- Lots of opportunities for mistakes: you tell them wrong address, dispatcher hears and forwards wrong address, driver hears wrong address, etc.
- Driver chooses route. Is the best route being taken?
- When the ride is over, does driver take your credit cards? Is the POS device working? Does driver require cash?

#### Uber:

- Order online, see availability, get a firm price quote, get updates on delivery
- All automated system knows your location and electronically relays that information. No mistakes are possible.
- System chooses the most optimal route automatically. Very Transparent!
- When the ride is over, you get out of the car, and you are done. Payment is fully automated.

# Partial Customer List

# 2025 OSUPPLY CHAIN SINIZE X MATTERS! CONFERENCE

**DISCOVER • CONNECT • BENCHMARK** 

MARCH 3-5 2025 HOUSTON TEXAS

#### Just for Supply Chain Professionals

#### WHY MSCM IS DIFFERENT?

#### JUST SUPPLY CHAIN

Topics are Procurement, Logistics, e-Commerce, Supply Chain & P2P ONLY! No Work Orders, No Asset Hierarchy, No PM Jobs, etc. Just Supply Chain for Maximo

#### INDUSTRY LEADERS

Selected topics will be assigned to the best-qualified customer, or industry, thought-leading resource to study, prepare a position, and present at the conference.

#### YOUR TOPICS

We are determined to create topics Maximo Customers are interested in with our Pre-Conference Survey Take the survey, drive the content!

#### BUSINESS PARTNERS

Maximo Implementation
Business Partners present
on best business practices,
optimization experiences,
and integration to ERP
Procurement systems. How
they did it, and what they
would do better next time.

#### **ADVISORY COUNCIL**

An Advisory Council of leading Maximo customers and industry leaders will review the survey results, prioritize the topics, and assist in setting the agenda.

#### MRO SUPPLIERS

MRO Suppliers to present their strategy and integration capabilities to give customers visibility, control and automation from a fully integrated P2P process.

... please pass it along to them.

# For Best Pricing Act Fast:

Until Nov. 15/24

# Thank you.
