

# MAXIMO AS A SERVICE OR “MAAS” IS A MANAGED SERVICE SOLUTION THAT PROVIDES A SECURE AND FULLY SUPPORTED MAXIMO APPLICATION VIA PROJETECH’S CLOUD.

- Certifications: ISO 27001, 27017, and 9001; SOC 2
- Database Agnostic: Support for SQL, DB2, and Oracle database platforms
- Licensing Flexibility: Receive AppPoint entitlements bundled with MaaS, BYOL, or BYOP
- Support for integrations, 3rd party solutions, and VPN’s
- Projetechn's Administration Toolbox: ease MAS administration and improve operational reliability.
- Comprehensive offerings to ensure all IT needs are met along the way

# INTERESTED IN EXPLORING AN UPGRADE TO MAXIMO APPLICATION SUITE BUT NOT SURE WHERE TO START?

Projetech can help you explore your options with Maximo Application Suite as well as provide the tooling, integrations, and configurations your organization needs to streamline operations.

## MAS DEMO INSTANCE

- Ideal for hands-on exploration with a non-production environment, our MaaS (Maximo as a Service) Manage Demo Instance provides a perfect setting for demonstrations, training, and sandbox experimentation

## MAS STANDALONE NON- PRODUCTION INSTANCE

- Designed for organizations intending to run a full simulation of their business and mirrors production requirements and form the basis for a future MAS Manage production migration
