

The asset
management journey.
Streamlined.

About Naviam

- The combination of seven technology leaders in asset management, Naviam emphasizes streamlining the asset management journey, focusing on navigating advanced asset management and cloud services while simultaneously unlocking innovative solutions and technologies to provide value to our customers.
- Projetechn's cloud-based Maximo, InterPro's mobile solutions, and ActiveG's GIS integration will help us to offer more comprehensive solutions

Naviam by the Numbers
